e-tablished agencies in Loudon.

A telegraph company, under the

title of the Panama and South Pacific

Telegraph Company, has recently

been formed, for the purpose of con-

necting Pora, Femador and New Gra-

nada with Panama, and thus forming

chain between North and South America and the continent of Europe,

The cable will touch Peru at Tumpez,

where it will connect with the land lines of the National Telegraph Com-

pany of Peru, and will thence push

southward to Chill, uniting with the

Why the Administration Does not Bisk a

War with Spain,

fea ted at Guiamara; he yet has at his disposed a large force of men, and an exhausted exchequer—two most vital elements to the successful prosecution Mr. S.—None in the least. It is suits: First, given evidence of their sability as a military power to accompain the purpose they profess to be able to accomplish, viz: The driving out of the Spaniards from the island at the point of the bayonet; second, the occupation of some city or impregnable position where all matters having an international or legal bearing may be adjusted without fear of a reversal of judgment in case of Spaniary of the success in the field. The latter was posses without reference to national or all notice of than hat the posses to justice.

Depulation than England, or, in fact, we ourselved then before the down stained by draignly stained by draignly and then down stains at his throat, so the posses in the field at the point of the plow hadden now, and there will be no gap of them the desired or thought to be capable of being established.

This Tremon opisate will be the standing point in the decience, in the standing point in the decience. In the standing point in the decience, it is given out that there will be no gap of them the point of thought to be capable of being standing point in the decience. In the standing point in the decience, it is given out that there will be no gap of them the point of the power of extending point in the decience. In the standing point in the decience, it is given out that there will be no gap of them the power to justice.

This Tremon opisate will b in order to clothe it with a degree of it, however, importance that it in my opinion desufficiently assured on these to enable other configuous foreign territory?

Mr. S. - I look forward to their uit. tionably the lecting of the American mate absorption into our great Fede-people is in favor of the recognition of rai Government, beginning first with Suba without further delay, but I Mexico and the West India Islands; hardly think that it is their coot, sober judgment that speaks. We are par excellence, as a nation, creatures of impulse, and are prome to give free the north, known as British American continent. We have a American Continent.

cem to our ideas without sufficiently moral right, not only to this Contistudying what will probably result near, but to the whole of this bemis thereigen, it earried into practical ef-legst. This question of Cuba is not really underscood by one out of a hun-fication of the St. Thomas, St. Dodred of our so-called thinking men. mingo and Samana Bay treatles? have not yet been exposed to the pub-lie gaze. It is not so much what question as I would like, I can say, fail, to accomplish, to which is attributable the present attitude of the Government on this question, as it is the probable results that will follow the recognition of her belligerency by the United States. In the latter case Spain has distinctly avowed for in-fention of making it a cosm beld, not-cation of any of the restles. with standing that the result of a war between the two Governments could have but one possible result—the discomfiture of the weaker power. I have no doubt but that Spain would gladly relinquish Cuba-but it cannot | What the South Loves for Want of Manudone through indimidation or threat on our part, implied or ex-pressed. In spile of the degeneracy of the times, as evidenced in all the pursuits comprehended within the mean-ing of the words agriculture and com-in round numbers \$39,000,000. In the merce, Spain still preserved her old same year, Massachusetts imported custilian pride in all its pristine vigor. merce, Spain still preserved her old castlian pride in all its pristing vigor. The recollections of times gone by—when her flag floated over a hundred when her flag floated over a hundred by Massachusetta imported and dry goods business, and was there are checked by falling down. The store of A. Labenburg, on the opposite of A. Labenburg, on the opposite of A. Labenburg, on the large and handscanely imported and manufactured Sis,665 bales, realizing \$85,566,000. citadels of Europe-when England, France, Austria, Germany, and Italy, in whole or in part, bowed an humble about. Therefore, had the former acknowledgement to the supremacy of State wrought up all the staple of the her arms—when, in fact, her power on the continent of Europe was little, if any less than that of ancient Rome -comes to her mind with too stert- profit of \$105,900,000. But this cotton ling a force to suffer her pride to un- was manufactured somewhere, if not dergo the still further humiliation of in Massachusetts; and paid to those yierding, without a desperate strug-gie, Cuba—the brightest and most did to the producers. The net results precious of her island jewels. I have will be considered hereafter, no doubt but that, within twenty-four Again, Texas, with 3,500,000 cattle, bours after the accordance by this govvernment of belligerent rights to testimating for the two latter articles
